In the **All Specimens** folder. After adding the logline to the Specimen Tracking Enrollment form, a folder will have populated for the specific specimen.

Open corresponding folder and complete the **Specimen Transmittal** form.

Click **Save** when finished.

Notes:

If changes are needed to the **Protocol Timepoint**, **Specimen Category**, **Specimen Type**, and **Tissue Type** (i.e.: primary, metastatic); the changes need to be made on the corresponding **Specimen Tracking Enrollment** log line.

Required fields are in red font.
